BLUEPRINT VIRGINIA 2035

Blueprint Virginia (2013)

Setting the Foundation

Launched the Commonwealth's first business-led strategic plan, delivered to the governor to guide policies that strengthen economic competitiveness and job creation.

Blueprint Virginia 2025 (2017)

Expanding the Vision

Built upon the inaugural plan with broader regional engagement and a deeper focus on workforce, education, and innovation as drivers of statewide prosperity.

Blueprint Virginia 2030 (2021)

Driving Resilience and Recovery

Addressed the challenges and opportunities emerging from the pandemic era, emphasizing infrastructure modernization, broadband expansion, and workforce readiness.

Blueprint Virginia 2035 (2025)

Charting the Future

The fourth iteration of *Blueprint Virginia* reflects the insights of more than 10,000 Virginians—offering a clear, business-led roadmap to keep Virginia a best state for business.

INNOVATION AND TECHNOLOGY PRIORITIES

- Artificial Intelligence
- Broadband, Cybersecurity, and Digital Infrastructure
- Innovation Ecosystems and Research Commercialization
- Entrepreneurship and Start-Up Growth

INNOVATION AND TECHNOLOGY PRIORITIES

Artificial Intelligence

- Digitize data and information and implement ethical AI solutions in government operations to modernize services, reduce administrative costs, and improve permit processing times
- Develop programs to integrate responsible and trustworthy AI technologies into business operations that enhance productivity and workforce efficiency while providing guidance and model policies regarding AI use by employees
- Advocate for cohesive federal-level, industry-specific AI regulations while maintaining state-level oversight focused on protecting data privacy and preventing unlawful and unethical applications
- Develop and implement new workforce training resources and improve visibility and access to existing training resources to strengthen workplace skills essential in an AI-enabled workplace for incumbent workers, those transitioning industries, and those seeking new opportunities
- Quickly establish AI-related curricula and classroom use policies in the K-12 system and at higher education institutions that encourage appropriate AI training and usage for students
- Develop and provide training in business process redesign, systems thinking, and change management for managers who are leading the deployment of ethical AI tools and resources in a rapidly changing workplace

QUESTIONS?

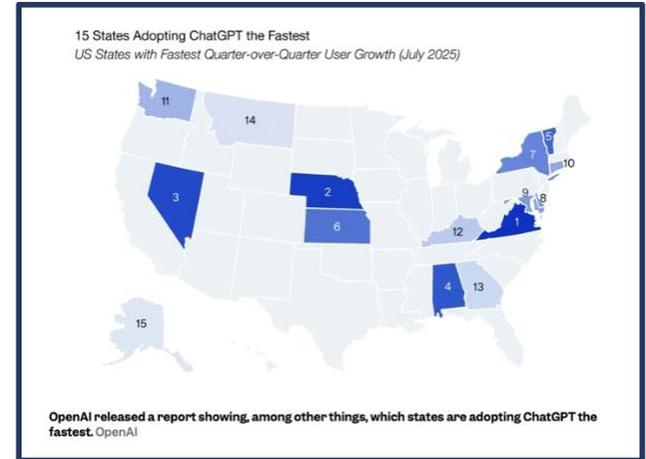

Virginia AI Landscape Assessment Report

March 24, 2026

Examining AI Workforce and Workplace Impacts

- **Virginia is the first state to look at this through a workforce and workplace lens**
 - Idea came from discussions at the state board retreat last year
 - Regions 2 & 3 came together to fund a Planning Grant
- **No state has this figured out**
- **There is no time to wait – action is needed now**
- **Virginia has several inherent advantages at this point**

Virginia AI Landscape Assessment - Released January 6th

Key Elements of the

Report

Overview of AI and AI Research

AI Perspectives in Virginia

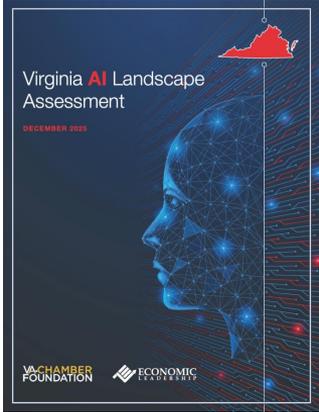

Virginia AI Asset Mapping

Forecasting AI Impacts in the Commonwealth

34 Strategic Recommendations

Regional Impact Forecasts

Transferrable Skills Analysis Examples

Download the Report

About the Process

- **Literature Review**
- **Mapped Virginia's Assets**
- **Listened to Virginians' Perspectives**
 - Surveyed 500+ attendees at Blueprint Tour Stops in 8 out of 9 GO Virginia Regions
 - 38 Individual Interviews in all 9 Regions
 - Conducted an online employer survey
- **Modeled Potential Impacts by Occupation and Industry**
- **AI Landscape Assessment Workgroup**

Research on Business Opportunities and Impacts

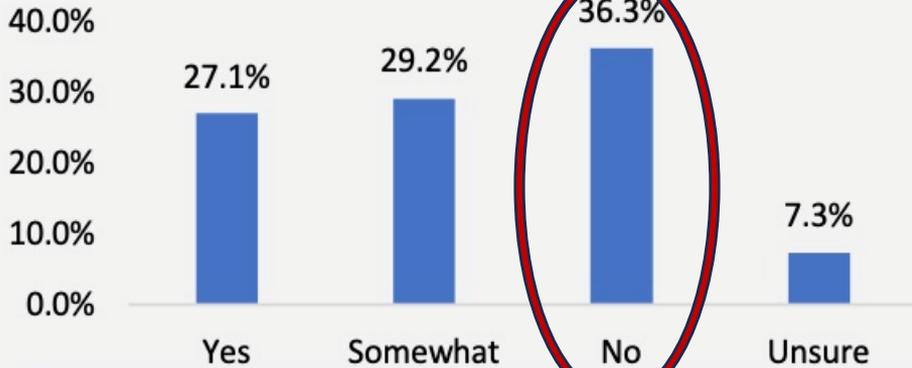

- Executives report seeing significant potential in AI to improve productivity and innovation
- Many employees remain skeptical, though many are already using AI tools—sometimes informally or without formal approval
- Thus far, AI appears to be affecting tasks more than employment levels, reshaping what workers do rather than eliminating positions
- Early adopters of AI are already realizing productivity gains and strong returns on initial investments
- While efficiency gains are notable, the largest long-term impacts may emerge in product innovation and R&D
- There is currently wide variation in adoption rates, with large firms moving faster than small and mid-sized businesses

Research on AI and Occupations

- Estimates vary, but somewhere between 20-30 percent of occupations could be subject to automation within 5 years.
- Depending on the mix of skills, some jobs will be fully automated, many augmented and others minimally impacted
- Highly educated, higher wage, white-collar and creative occupations are most “exposed” to GenAI
- STEM fields are more likely to be exposed to AI but with advent of AI, demand for AI-specific skills is spreading to a broader set of occupations than just tech
- In addition to AI literacy, employers are seeking skills such as creative thinking, resilience, critical thinking, systems thinking and agility

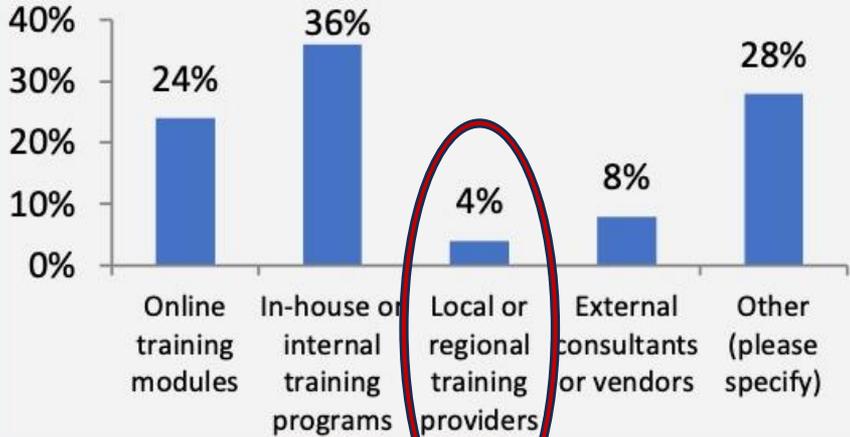

AI Use and Perspectives in Virginia

Is AI training readily available at your firm or in this region?

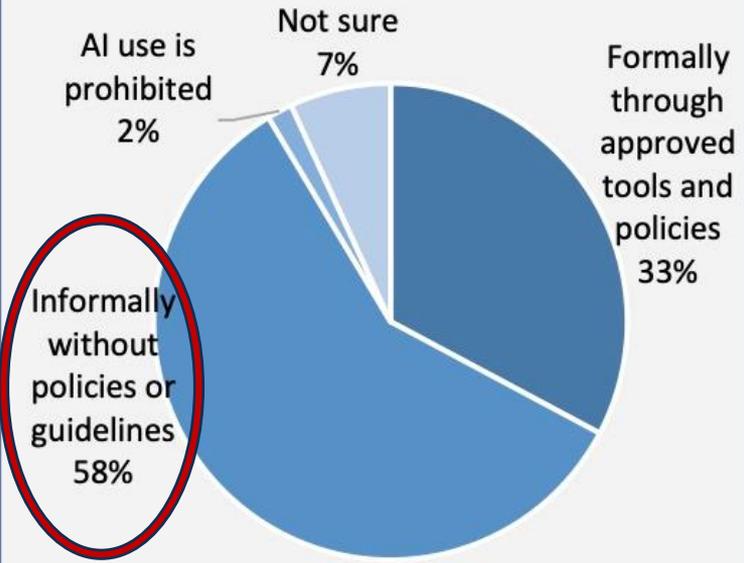

Mentimeter Survey Results from Blueprint Tour Stops in May-August 2025; 520 attendees responded to survey questions in eight locations

If yes, how is AI training currently being provided to your workforce?

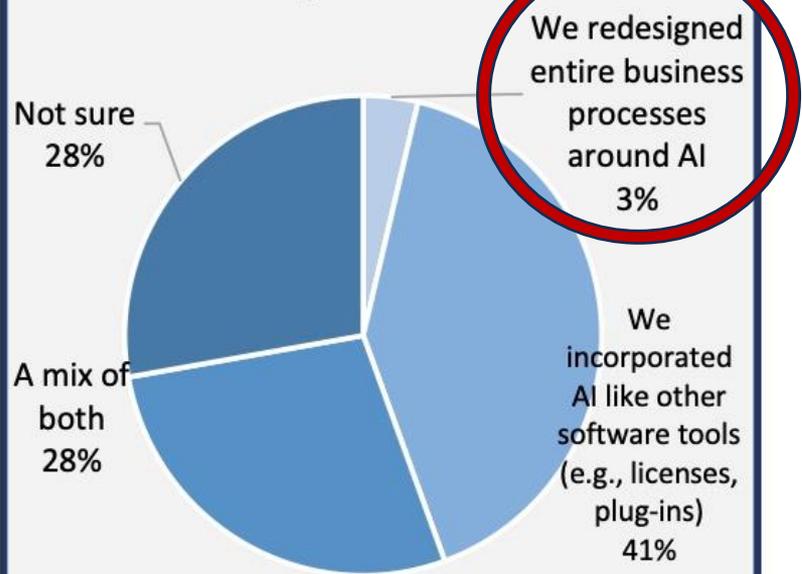

AI Use and Perspectives in Virginia

How is AI currently being used within your organization?

If your organization is using AI, how has it been integrated into your operations?

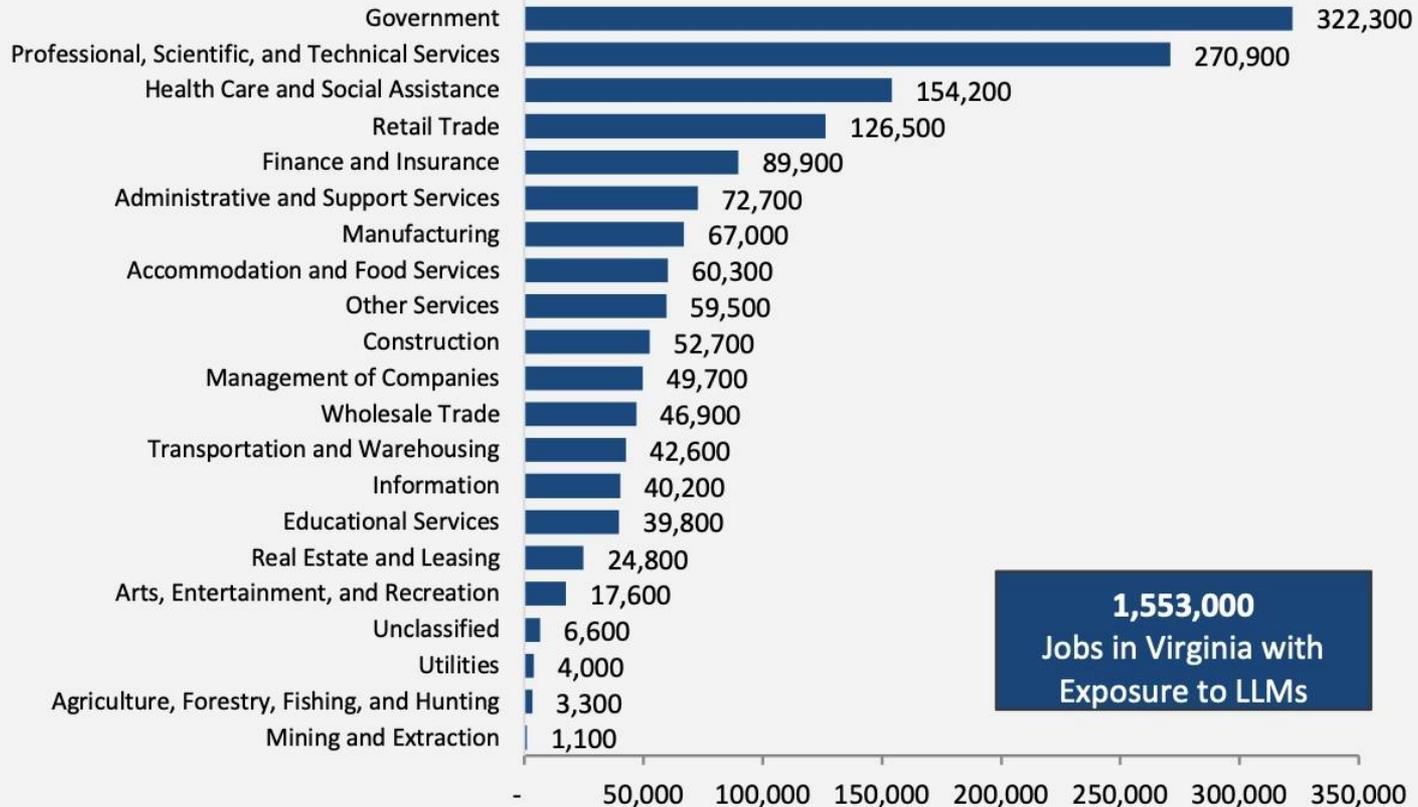

Occupations with Greatest AI Exposure in Virginia

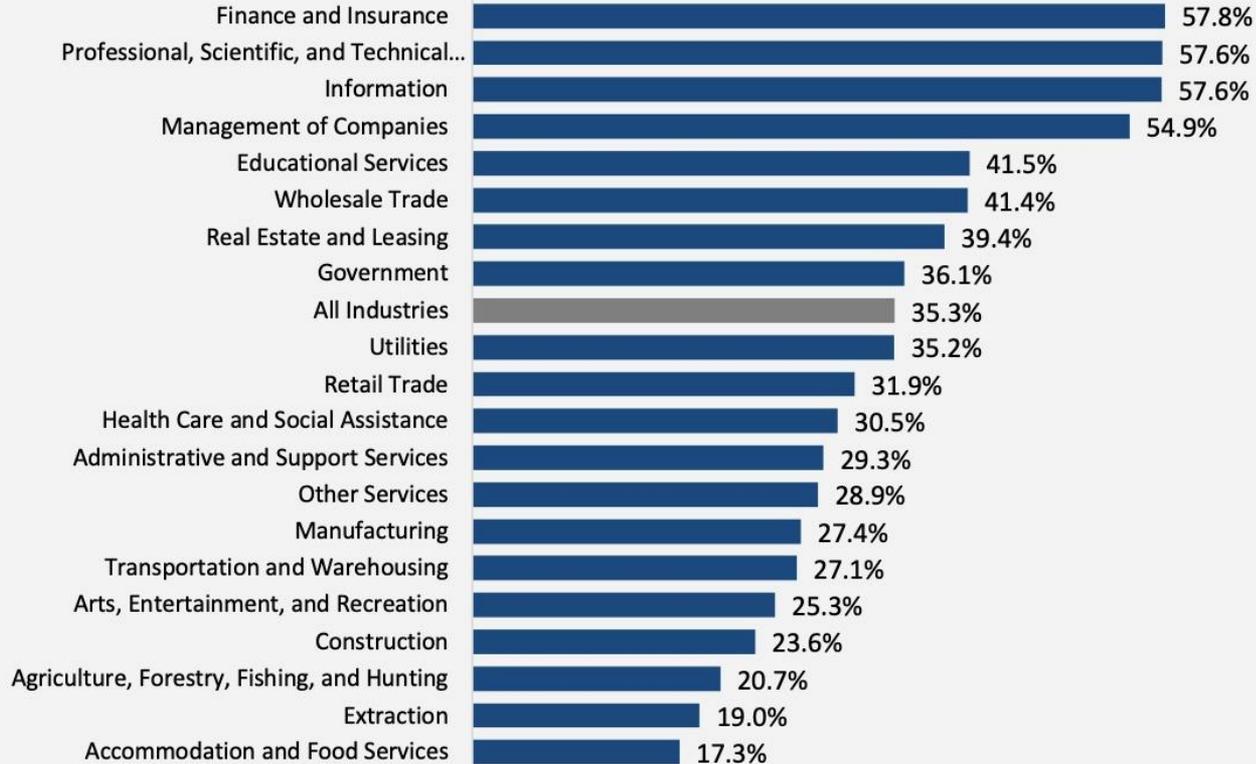

Source: EL calculations based on Lightcast 2025.3 and Eloundou et al. (2024)

Industries with Greatest Exposure to LLMs in Virginia

Source: EL calculations based on Lightcast 2025.3 and Eloundou et al. (2024)

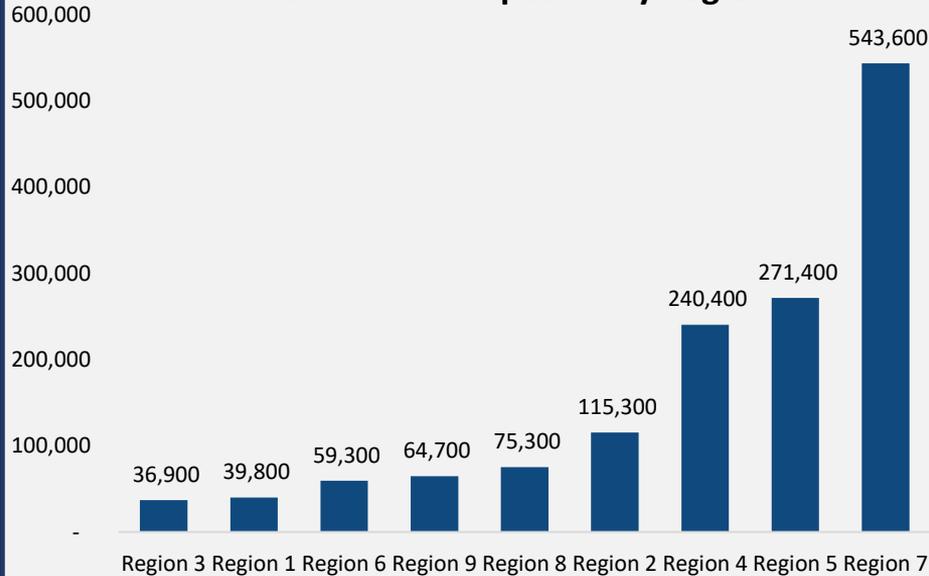

Share of Jobs with LLM Exposure within Industry, 2024

Source: EL calculations based on Lightcast 2025.3 and Eloundou et al. (2024)

Exposed Jobs – By Region

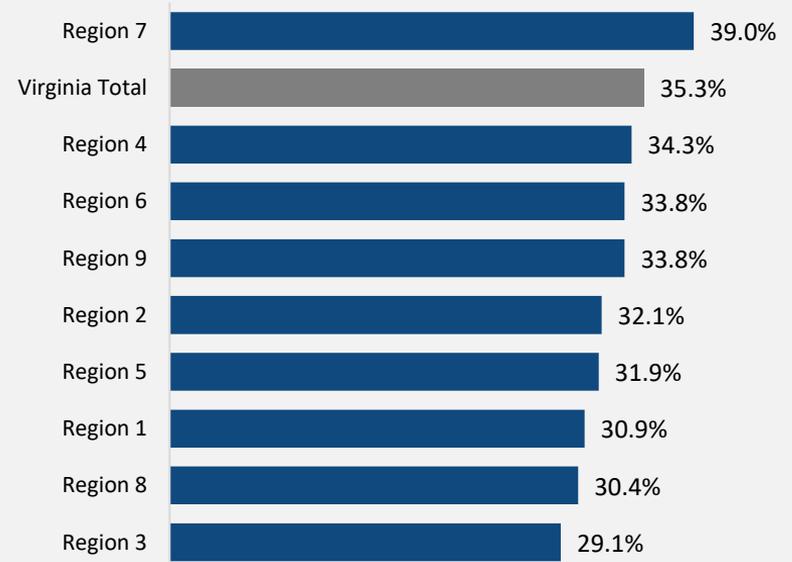

Jobs with AI Exposure by Region

Source: EL calculations based on Lightcast 2025.3 and Eloundou et al. (2024)

Note: Some jobs are only categorized at the state level, therefore regional numbers do

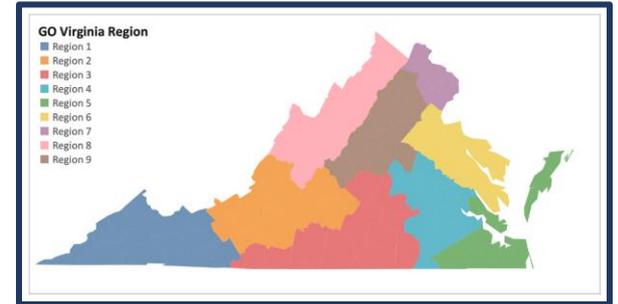

Share of Jobs with AI Exposure, 2024

Source: EL calculations based on Lightcast 2025.3 and Eloundou et al. (2024)

What We Found...

- All current and future workers need AI familiarity and data literacy
- Incumbent workers need AI training, policy and use clarity and reskilling as their jobs change
- Displaced workers need re-employment training and assistance
- To maximize the benefits of AI, businesses need to strategically deploy AI and provide training and clarity for workers on AI use
- Virginia can be a leading state for AI-related business attraction and expansion if the infrastructure (utility capacity, sites, fiber connectivity) can keep up

34 Strategic Recommendations in 5 Areas

Workforce-related Recommendations

1.
Universal
AI Literacy

2.
Incumbent
Workers –
Training
and
Resources

3.
Displaced
Workers –
Upskilling
and
Support

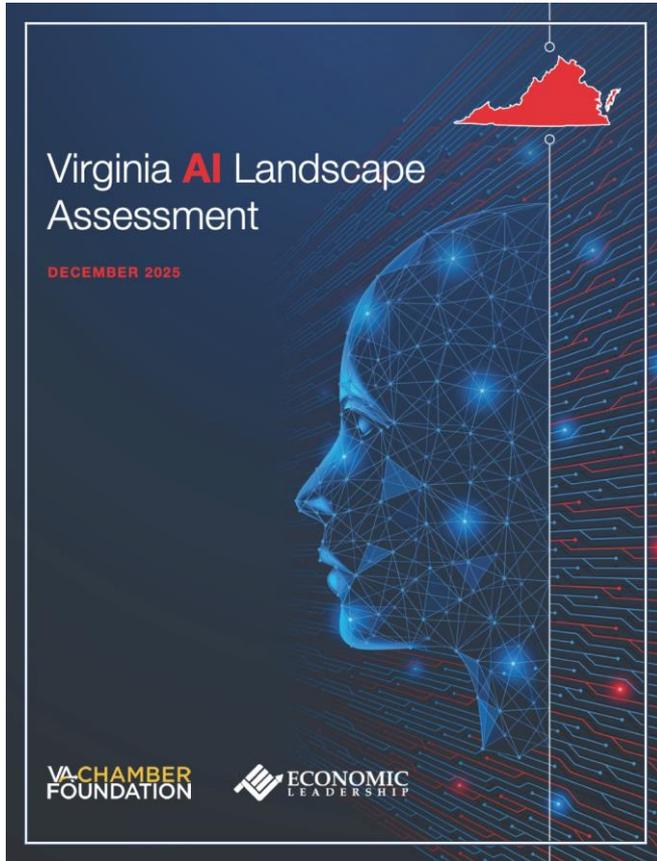

4. Support and Resources for
Virginia Businesses

5. Infrastructure to Grow &
Attract AI-related Businesses

AI-related Opportunities for GO Virginia

- **Develop regional AI implementation strategies**
- **Facilitate the flow of information from the business community to inform AI workforce development needs and emerging transferrable skill opportunities**
- **Support workforce training opportunities in each of the 3 workforce goal areas (universal AI literacy, incumbent workers, displaced workers)**
- **Support initiatives that help businesses optimize the use of AI (this is especially important for small- and mid-sized firms)**
- **Support for infrastructure development necessary for Virginia to grow and attract AI-related businesses**

THANK YOU!

Mike Malone

IV. Deputy Director's Report

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

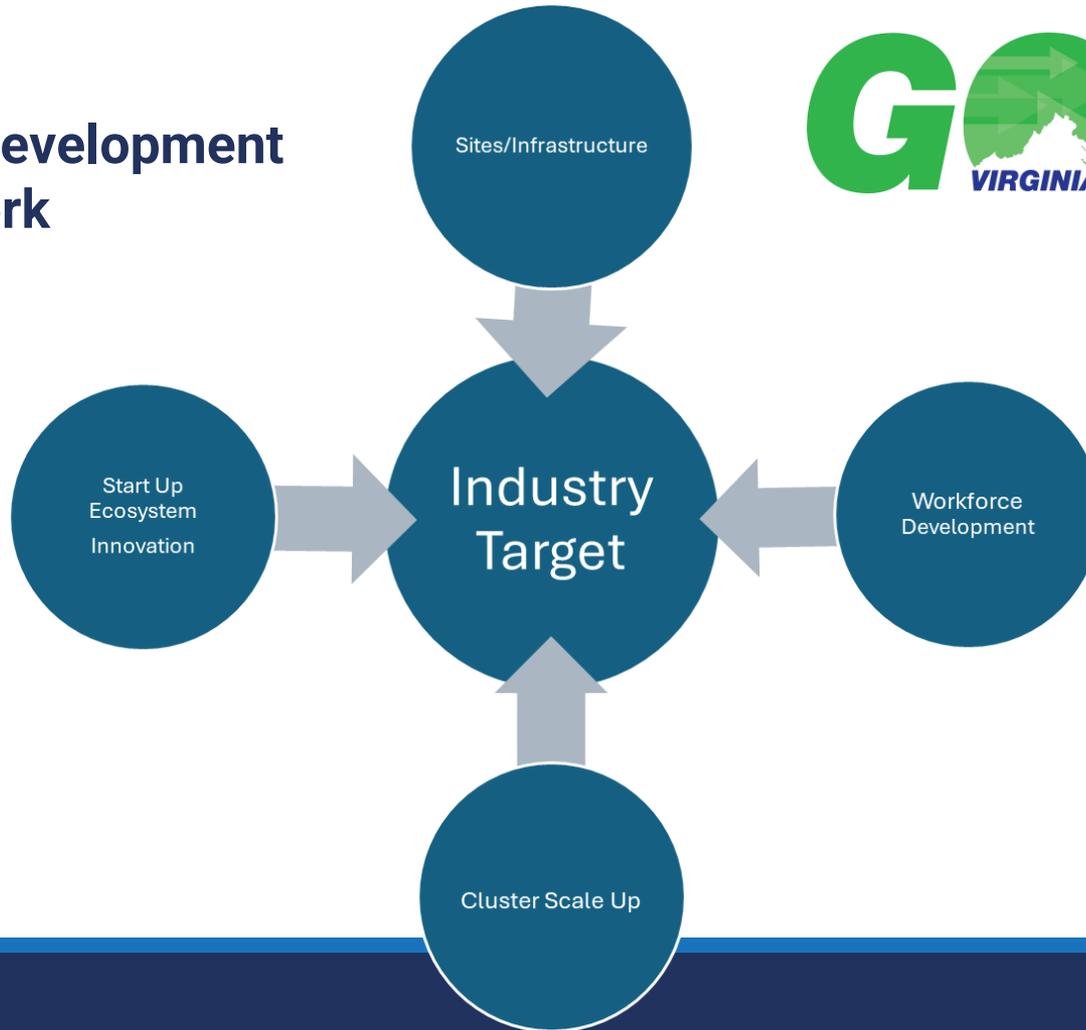

- a. **Action Item:**
 - i. Per Capita Applications (9)
 - ii. Competitive Applications (3)

Project Development Framework

VIRGINIA INITIATIVE FOR
GROWTH & OPPORTUNITY
IN EACH REGION

Application Process

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

1. Applications are submitted to Regional Councils
2. Approved applications are advanced to DHCD
3. Technical review by DHCD staff
4. Workgroup review and project pitch calls to develop recommendations for the Board
5. Feedback Loop Process informs Regional Councils and allows applicants to address any outstanding questions of the workgroup
6. Staff prepares final workgroup recommendations for the Board
7. Presented for Board consideration
 - **Approve:** *Application satisfies all program requirements*
 - **Defer:** *Application is in line with GO Virginia priorities, but fails to sufficiently address all program requirements or evaluation criteria*
 - **Not Approve:** *Application activities are out of scope with GO Virginia priorities*
8. Approved projects go to contract

Evaluation Criteria

- **Economic Impact**
 - Metrics and outcomes program aligned and defined
 - Alignment with Targeted Industry Sectors (G&D, REI, or TPI)
 - Economic Impact Analysis Validated
 - Evidence of Industry Demand for Project
- **Regional Collaboration**
 - Meaningful participation of 2 or more localities
 - Private Industry Involvement
 - Demonstrates Regional Coordination and Contribution
- **Project Readiness**
 - Defined Timeline and Milestones
- **Sustainability**
 - Clean and Executable Post-Grant Sustainability Plan, Sustained Demand for the Project

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

■ i. Per Capita Applications

- 9 Project Proposals
- 5 out of 9 Regions Participated

Industry Cluster Targets:

Advanced Manufacturing, Agriculture/Value-Added Food Manufacturing, Shipbuilding and Ship Repair

Aerospace & Autonomous Systems

Life Sciences

Transportation and Logistics, Port Operations

Information Technology

Energy Security

Business Services

Investment Strategies:

- 2 Site Development and Infrastructure Projects
- 1 Cluster Scale-Up Project
- 6 Talent Development Projects

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

**GO Virginia
Request:**
\$9,387,985

Total Match:
\$6,425,291.54

Local Match:
\$1,551,526.54

Region 5: Hampton Roads Playbook Sites Planning

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

Targeted Industry Cluster(s): Shipbuilding and Ship Repair, Uncrewed Systems, Port Operations, Logistics, and Warehousing, Energy Security

Applicant: Eastern Virginia Regional Industrial Facility Authority (EVRIFA)

Investment Strategy: Site Development and Infrastructure

Participating Localities: Gloucester County (cash), James City County (cash), Isle of Wight County (cash), York County (cash), City of Chesapeake (cash), City of Franklin (cash), City of Hampton (cash), City of Newport News (cash), City of Poquoson (cash), City of Portsmouth (cash), City of Virginia Beach (cash), City of Williamsburg (cash)

Goal: To expand the inventory of shovel-ready industrial sites in the Hampton Roads region by deploying a Site Readiness Analyst and applying the “DEAL” framework to transform industrial site data into market-ready assets and prioritize future site investment opportunities.

Products:

- Aviation and Uncrewed Systems site analysis
- Regional industrial site readiness evaluations
- Post-announcement major project readiness guidance
- DEAL Framework-informed site prioritization
- Development of market-ready site profiles
- Regional Asset Map Integration

**GOVA
Request:**
\$296,450

Total Match:
\$158,500
Local Match:
\$158,500

Project Budget:
\$454,950

**Additional
Leverage:**
\$ -

Workgroup Recommendation:
Approve

Region 8: Clarke County Camp 7 Extended Due Diligence

Targeted Industry Cluster(s): Business Services, Agriculture/Value-Added Food Manufacturing, Life Sciences, Information Technology and Emerging Technologies, Advanced and Light Manufacturing, Transportation and Logistics

Applicant: Clarke County

Investment Strategy: Site Development and Infrastructure

Participating Localities: Clarke County (cash) and Frederick County (infrastructure)

Goal: To expand the inventory of shovel-ready industrial sites in GO Virginia Region 8 by completing infrastructure design, topographical surveying, and site characterization for the 40-acre Camp 7 site.

Products:

- Technical review documents, including:
 - Topographical survey
 - Sanitary sewer line design
 - Infrastructure and engineering site plan
 - Site characterization report

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

**GOVA
Request:
\$250,000**

**Total Match:
\$152,895.77
Local Match:
\$152,895.77**

**Project Budget:
\$402,895.77**

**Additional
Leverage:
\$ -**

**Workgroup Recommendation:
Approve**

Region 5: Hampton Roads Playbook Implementation: Defense

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

Targeted Industry Cluster(s): Shipbuilding and Ship Repair

Applicant: Hampton Roads Alliance

Investment Strategy: Cluster Scale-Up

Participating Localities: Isle of Wight County (cash), James City County (cash), New Kent County (cash), Southampton County (cash), York County (cash), City of Chesapeake (cash), City of Franklin (cash), City of Hampton (cash), City of Newport News (cash), City of Norfolk (cash), City of Poquoson (cash), City of Suffolk (cash), City of Virginia Beach (cash), City of Williamsburg (cash)

Goal: To strengthen defense-related supply chains and support the expansion and attraction of companies to GO Virginia Region 5 through a targeted implementation strategy led by the Hampton Roads Alliance that leverages retired executive networks, international partnerships, and a comprehensive regional capabilities matrix.

Outcomes:

- 300 jobs created
- 4 businesses attracted
- 6 existing businesses expanded
- 50 businesses served

**GOVA
Request:**
\$746,494

Total Match:
\$443,000
Local Match:
\$143,000

Project Budget:
\$1,254,550

**Additional
Leverage:**
\$ 65,056

Workgroup Recommendation:
Approve

Region 2: Randolph College Mechanical Engineering Program Expansion

Targeted Industry Cluster(s): Advanced Manufacturing

Applicant: Randolph College

Investment Strategy: Talent Development

Participating Localities: City of Lynchburg (In-Kind), Amherst County (In-Kind), Lynchburg Regional Business Alliance (LRBA) on behalf of its member localities (City of Lynchburg, Amherst County, Campbell County, and Appomattox County) (In-Kind)

Goal: To expand the pool of qualified mechanical engineers for the advanced manufacturing industry within Region 2.

Outcomes:

- 40 people trained
- 15 job placements
- 1 new program implemented
- 40 credentials awarded
- 20 new interns placed
- 15 students completing a dual enrollment program

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

**GOVA
Request:**
\$686,340

Total Match:
\$395,167
Local Match:
\$7,902

Project Budget:
\$1,353,507

**Additional
Leverage:**
\$272,000

Workgroup Recommendation:
Approve

Region 5: FAA Uncrewed Aerial Systems College Initiative and Talent Pipeline: Advancing BVLOS Capabilities in the Commonwealth of Virginia

Targeted Industry Cluster(s): Uncrewed Systems

Applicant: Eastern Shore Community College

Investment Strategy: Talent Development

Participating Localities: Accomack County (in-kind), Northampton County (in-kind)

Goal: To increase the pool of qualified workers in GO Virginia Region 5, by establishing an Unmanned Aircraft Systems (UAS) workforce development program aligned with regional industry needs.

Outcomes:

- 544 people trained
- 54 jobs created
- 5 businesses served
- 50 new interns placed
- 6 new apprenticeships created
- 10 new programs implemented
- 470 credentials awarded

Outcomes, cont.:

- 25 students completing dual enrollment
- 4 new mentors providing assistance

VIRGINIA INITIATIVE FOR

Workgroup Recommendation:
Approve

Region 5: Hampton Roads Mobility Innovation Center

VIRGINIA INITIATIVE FOR
**GROWTH &
OPPORTUNITY**
IN EACH REGION

Targeted Industry Cluster(s): Uncrewed Systems, Cybersecurity, Data Analytics, Modeling, and Simulation

Applicant: Newport News Economic Development Authority

Investment Strategy: Talent Development

Participating Localities: City of Hampton (in-kind) and City of Newport News (cash and in-kind)

Goal: To expand the pool of qualified workers in unmanned systems in Region 5.

Outcomes:

- 800 people trained
- 4 new interns placed
- 4 new programs implemented
- 460 credentials awarded

**GOVA
Request:**
\$3,061,400

Total Match:
\$1,530,988
Local Match:
\$336,428

Project Budget:
\$4,860,388

**Additional
Leverage:**
\$ 218,000

Workgroup Recommendation:
Approve

Region 5: Start in Hampton Roads: Talent Attraction & Retention Program

Targeted Industry Cluster(s): Uncrewed Systems, Cybersecurity, Data Analytics, Modeling, and Simulation, Port Operations, Logistics, and Warehousing, Shipbuilding and Ship Repair

Applicant: Hampton Roads Chamber Foundation

Investment Strategy: Talent Development

Participating Localities: Hampton Roads Workforce Council on behalf of member localities: Isle of Wight County (cash), James City County (cash), New Kent County (cash), Southampton County (cash), York County (cash), City of Chesapeake (cash), City of Franklin (cash), City of Hampton (cash), City of Newport News (cash), City of Norfolk (cash), City of Poquoson (cash), City of Suffolk (cash), City of Virginia Beach (cash), City of Williamsburg (cash)

Goal: To expand the pool of qualified workers in GO Virginia Region 5 by creating a comprehensive talent attraction portal and lead-management system to recruit and retain talent for the region's priority industries.

Outcomes:

- 70 jobs created
- 20 new interns placed
- 35 businesses served

VIRGINIA INITIATIVE FOR
**GROWTH &

Region 6: Extended and New Pathways with Stafford and Caroline Counties

Targeted Industry Cluster(s): IT/Data Centers, Distribution and Logistics, and Professional Services

Applicant: Stafford County Public Schools

Investment Strategy: Talent Development

Participating Localities: Stafford County Public Schools (cash and in-kind), Caroline County Public Schools (in-kind)

Goal: To create pathways and training opportunities for high school students to attain certificates, dual enrollment credits, four-year degrees, and/or go directly into employment.

Outcomes:

- 250 people trained
- 7 new programs implemented
- 250 credentials awarded

VIRGINIA INITIATIVE FOR

Region 7: Life Sciences Innovation and Future Talent (LIFT-VA)

Targeted Industry Cluster(s): Life Sciences

Applicant: Future Kings

Investment Strategy: Talent Development

Participating Localities: Loudoun County (in-kind), Loudoun County Public Schools (in-kind), Prince William County (in-kind), Prince William County Public Schools (in-kind)

Goal: To grow the regional life sciences workforce pipeline from middle school through graduate education laboratory training, credentials, internships, and employment pathways.

Products:

- Implementation of ACE approved STEM curriculum

Outcomes:

- 340 people trained
- 150 job placements
- 10 businesses served
- 60 interns placed
- 20 apprenticeships created

Outcomes, cont.:

- 300 credentials awarded

Regions 2 and 3: AM2 Initiative to Grow Advanced Manufacturing, cont.

Targeted Industry Cluster(s): Advanced Manufacturing

Applicant: New River Valley Regional Commission (NRVRC)

Goal: To expand the additive materials and advanced manufacturing sector in Regions 2 and 3 through a combination of talent development and cluster scale-up activities.

Products:

- Creation of the AM2 Fellows Program
- Establishment of two AM2 Studios
- Establishment of the AM2 Consortium
- Establishment of the AM2 Innovation Fund
- Develop a nationally recognized AM2 Credential

Outcomes:

- 10 people trained
- 25 new interns placed
- 4 new apprenticeships created
- 1 new program created

Outcomes, cont.:

- 3 new business mentors
- 100 jobs created
- 1 business attracted
- 1 business expanded
- 40 businesses served
- \$2,000,000 raised by businesses served

Workgroup Recommendation:
Approve

Regions 6 and 9: AI Mobile Unit for Workforce and Education

Targeted Industry Cluster(s): Professional and Business Services, IT and Emerging Technology

Applicant: The Cyber Bytes Foundation

Investment Strategy: Talent Development

Participating Localities: Fauquier County (advisory), King George County (in-kind), Nelson County (in-kind), Orange County (cash and in-kind), Rappahannock County (in-kind), Spotsylvania County (in-kind), and Stafford County (in-kind).

Goal: To address the limited availability of accessible, industry-credential-aligned AI literacy and certification training for students, educators, and adults within the region's targeted industry clusters.

Outcomes:

- 2080 people trained
- 20 businesses served
- 280 credentials awarded
- 1 new program implemented
- 100 students completing dual enrollment
