## **CR-05 - Goals and Outcomes**

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

This report is the fourth CAPER for the five-year 2018-2023 Consolidated Plan. The state has made significant progress toward establishing priorities specific to the development of affordable housing units that are accessible and targeted to special needs housing. These efforts have resulted in state housing policy development, coordinated efforts to provide community-based housing and services for individuals with intellectual/developmental disabilities, serious mental illness and dedicated state resources for affordable housing, permanent supportive housing, and rapid re-housing.

The past two years of the Five Year Plan are impacted by COVID, labor shortages, supply change issues, high construction material costs, and an high cost housing market. These challenges have primarily impacted the completion of rental and homebuyer new construction and rehabilitation projects. A number of projects have required additional commitments from funder to fill emerging financing gaps caused by current construction costs -all causing delays to get projects under contract and completed.

In addition, the state has worked to develop in coordination with Virginia Continuums of Care (CoCs) standard performance measures. On-going coordination and the restructuring of funding priorities have resulted in a significant reduction in homelessness in Virginia over the past 12 years.

Furthermore, Virginia has been acutely focused on addressing housing insecurity issues that have arisen during the COVID-19 pandemic.

### **Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

**Table 1 - Accomplishments – Program Year & Strategic Plan to Date**

**Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

The Virginia CDBG program makes funding available to local governments for planning and implementing community development projects in non-entitlement localities. Each project and activity utilizing CDBG funding must meet a national objective, which are: give maximum feasible priority to activities which will benefit low- and moderate-income families; aid in the prevention or elimination of slums and blight; and include activities which are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the community.

Localities submitting planning grants and competitive applications are expected to develop a methodology to prioritize the highest community development needs within the locality. CDBG competitive grant applications include activities that address the locality’s highest identified community development needs. Similarly, open submission projects are funded based on the locality’s ability to determine the community’s highest priority needs.

Virginia has been utilizing CDBG-CV resources towards addressing and responding to urgent needs related to the COVID-19 pandemic.

### Narrative

Please note, the ESG numbers shared reflect the racial demographics of persons (both adults and children) served based on 2020 - 21 data. The following racial category were not included in the table: Multiple Races. The ESG program served 230 persons who identify as multi-racial and 9 persons were served with missing racial data. HOPWA data above includes only the individuals qualifying the household for assistance. There are an additional two individuals who identify as Black/White. Please see the HOPWA CAPER report for more details.

## Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

Three primary housing initiatives continue to account for most of the leverage. Federal and state low-income housing tax credits stimulated private sector investment in affordable rental housing projects. The permanent financing (mortgage) that accompanies each affordable housing unit in the Homeownership Assistance Program accounts for a significant amount of leveraged private sector funding. Additionally, the availability of state, other federal and private sector funds to address various aspects of homelessness also accounts for a sizable amount of the funding leveraged by the CPD annual allocation.

ESG match requirements were met with state general fund resources for rapid re-housing, shelter operations, and homeless prevention. The HOME match was met with the Virginia Housing Trust Fund.

CDBG: CDBG does not have a defined match requirement. In the Competitive review process, leverage is calculated and ranked against other competitive projects. Leverage, local match, and funding commitments are evaluated and scored in the Costs and Commitments section of the scoring criteria (out of a total ranking of 1,000 points, this section carries a maximum score of 125 points). Regional projects that support economic development activities are required to meet a minimum 25% match from at least one of the applicant localities.

Table 12 – Number of Households Supported

**Discuss the difference between goals and outcomes and problems encountered in meeting these goals.**

More households and individuals were assisted with ESG and HOPWA as compared to prior years. This can be at least partially attributed to greater needs during the program year related to COVID's impact. In addition, far few units were completed during the program year due to COVID impacts including labor and material shortages and rising costs of construction materials. Cost increases resulted in many projects needing to seek additional funds to fill finance gaps.

**Discuss how these outcomes will impact future annual action plans.**

While material costs are still high at the writing of this report, DHCD anticipates at least some easing of the COVID impacts during the 2022 - 2023 program year.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

## **CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)**

**Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The state requires that all Virginia Continuums of Care (CoCs) and individual service providers utilize a coordinated assessment system. The coordinated assessment system must ensure that all persons experiencing homelessness are assessed using a common tool and receive appropriate services based on the standards of care. The coordinated assessment must assure access to services for individuals experiencing homelessness especially unsheltered persons through a “no wrong door” and “no side door” approach.

### **Addressing the emergency shelter and transitional housing needs of homeless persons**

The Commonwealth of Virginia leverages both state and federal resources to address the needs of individuals and families experiencing homelessness. These resources include those for prevention, rapid re-housing, and emergency shelter operations. Notably, DHCD has also utilized ESG-CV and HOPWA-CV to respond to housing insecurity related to COVID-19. The state's goals are to reduce the number of individuals experiencing homelessness, shorten the length of homelessness, and reduce the numbers of people returning to homelessness.

The Commonwealth uses a community-based application process for the allocation of both state and federal homeless assistance and prevention funding. CoC/ LPG application reviews and funding levels are based, in part, on local alignment with these state goals. These measures have helped to reduce homelessness in Virginia.

### **Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

The Commonwealth of Virginia leverages state resources to divert low-income individuals and families from homelessness. The state's program requires that homeless prevention providers participate in coordinated assessment systems and that prevention resources are targeted to those seeking homeless assistance in order to better target those most likely to become homeless.

Virginia has also utilized available federal and state COVID-19 resources towards homelessness

prevention efforts and for noncongregate shelter.

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

The Commonwealth of Virginia leverages state resources to divert low-income individuals and families from homelessness. The state's program requires that homeless prevention providers participate in coordinated assessment systems and that prevention resources are targeted to those seeking homeless assistance in order to better target those most likely to become homeless. Households experiencing homelessness are connected with homeless services including outreach services and rapid re-housing services. The state's program requires that utilization of a housing first approach to homeless services, which connects individuals experiencing homelessness with permanent housing solutions.

Virginia has also utilized available federal and state COVID-19 resources towards homelessness prevention efforts and for noncongregate shelter.

**CR-30 - Public Housing 91.220(h); 91.320(j)****Actions taken to address the needs of public housing**

Not applicable.

**Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

While DHCD requires that CHDO projects involve tenants in management decisions, DHCD is not a state housing authority and does not have authority over any local housing authorities

**Actions taken to provide assistance to troubled PHAs**

Not applicable.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

**Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

DHCD works through public forums and the annual Governor's Housing Conference (GHC) to address barriers to affordable housing. DHCD, along with other key partners, such as the Virginia Housing Alliance and Housing Opportunities Made Equal, work to help identify and encourage the removal of public policies that serve as a barrier to affordable housing.

### **Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

DHCD's HOME-funded Affordable and Special Needs Housing program, a development financing program for affordable rental and homebuyer development, has been redesigned to better meet the needs of underserved populations. Beginning with the 2014 – 2015 program year all applications for funding must include a Site and Neighborhood Standard form and the review panel considers project location as an important part of the overall project selection criteria. Notably, DHCD provides scoring preferences to proposed projects that target households who are classified as chronically homeless, individuals with intellectual/developmental disabilities, and/or those with serious mental illnesses. The scoring preferences were instituted with the intention to incentivize the development of additional permanent supportive housing units for individuals in need.

### **Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

DHCD considered proposed measures to address lead-based paint hazards in its selection process for the Affordable and Special Needs Housing (ASNH) program. Projects receiving ASNH investments are required to maintain the property to assure continued lead-based paint hazards compliance. DHCD conducts regular property standards inspections to monitor for compliance. In addition, sub-recipients are required to give notice, conduct visual inspections, and required mediations for all homeowner rehabilitation and direct homebuyer assistance programs.

In 2019, DHCD was awarded a grant from the HUD Office of Lead Hazard Control and Healthy Homes. The Lead Hazard Reduction program (LHR) funds lead-based paint remediation, administration, and capacity building activities across the Commonwealth. DHCD is partnering with local health departments, other state agencies (i.e., Department of Health, Department of Social Services), and our existing network of housing rehab providers to implement the program statewide. Children with elevated blood lead levels are the priority population for service under the LHR program.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

DHCD's goals, programs, and policies benefit families in Virginia by providing homeless assistance and prevention services that seek to either keep families in their homes or help them find permanent housing. These programs address barriers to housing and focus on leveraging mainstream resources whereby families may access resources reducing their level of poverty.

Housing development activities seek to provide affordable housing to moderate- to very low-income housing households. These activities also include homeownership assistance and Individuals Development Accounts (IDA) that help families build financial assets and improve their overall personal wealth, as well as a demonstration project to help move residents from areas of highly concentrated poverty to neighborhoods with lower poverty concentrations. Other programs managed through DHCD work to improve overall economic conditions. In these cases, DHCD provides assistance developing needed infrastructure and technical assistance that helps communities to be competitive and sustainable.

#### **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

DHCD works with many different organizations, both public and private, to carry out the Consolidated Plan. The community economic development activities are carried out through contractual agreements with units of local government. Please note that while individual localities are not listed, a total of nearly 300 localities are considered a part of the institutional delivery system. The housing activities, both production and preservation activities, are accomplished through partnerships with units of local government, non-profits, housing developers, and specifically through partnerships with state-certified Community Housing Development Organizations (CHDOs). Homelessness, HIV/AIDS, and other special needs services result from DHCD's relationship with Continuums of Care and a network of non-profit service providers including shelters and units of local government across the Commonwealth of Virginia.

Appropriate service coverage and the logistics of getting the funding and activities to the areas of need within Virginia are on-going challenges. The solution in many cases is long-term and evolving. DHCD works with community-based organizations to develop local assets for meeting local needs. DHCD puts special emphasis on CHDO development and encourages partnerships and collaborations in the work that is done.

Public housing authorities (PHAs) are components in the statewide system for the delivery of affordable housing. Local housing authorities are established through the auspices of local government, subject to state enabling legislation. Neither the state nor DHCD specifically has direct oversight for local PHAs, however we may partner with these entities through a grantee or project sponsor relationship to complete local projects or activities.

#### **Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

The state established a coordinated program between multiple state agencies to address transitioning

developmental/intellectual disabled individuals from institutional settings to housing within communities. Lessons-learned from the program's initial implementation and expansion have assisted the state in developing overall statewide coordination between public and private housing and social service agencies. This effort was expanded to address housing needs of people with serious mental illness and the chronically homeless population.

**Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

Applicants for the Affordable and Special Needs Housing (ASNH) program (which includes the HOME program that develops affordable rental units) must submit affirmative marketing plans. These plans are reviewed by DHCD staff at the time of application. Affirmative marketing plans are threshold requirements for ASNH funding. Any project selected through the application process must implement the approved affirmative marketing plan.

Onsite compliance reviews monitor for compliance with the affirmative marketing plan once the ASNH projects are complete and in operation.

## **CR-40 - Monitoring 91.220 and 91.230**

**Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

## **Citizen Participation Plan 91.105(d); 91.115(d)**

**Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

For performance reports, notices are published in several newspapers across the commonwealth. All notices included the address, phone number, TDD and time for submitting comments. The draft CAPER information is published online and made available in hard copy as requested. Written comments may be submitted through the close of business on September 27, 2022.

## CR-45 - CDBG 91.520(c)

## **CR-50 - HOME 24 CFR 91.520(d)**

### **Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations**

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

### **Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)**

Applicants for the Affordable and Special Needs Housing (ASNH) program (which includes the HOME program that develops affordable rental units) must submit affirmative marketing plans. These plans are reviewed by DHCD staff at the time of application. Affirmative marketing plans are threshold requirements for ASNH funding. Any project selected through the application process must implement the approved affirmative marketing plan. Onsite compliance reviews monitor for compliance with the affirmative marketing plan.

Please see the Fair Housing Activities attachment to this CAPER for more details.

### **Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics**

HOME program income is used in Affordable and Special Needs HOME-funded projects. These are primarily affordable rental, but can also include homebuyer projects.

### **Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)**

DHCD targets its HOME funds toward the development and preservation of affordable housing in the Commonwealth. Approximately 75 percent of projects receiving HOME funds have LIHTC commitments. The LIHTCs are administered through a sister agency, Virginia Housing. DHCD and Virginia Housing have mechanisms in place to share project information. Virginia Housing is the servicer of the ASNH loans on most projects funded through the ASNH program.

## CR-55 - HOPWA 91.520(e)

### Identify the number of individuals assisted and the types of assistance provided

Table for report on the one-year goals for the number of households provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities developed, leased, or operated with HOPWA funds.

### 11. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

Shelter utilization is based on shelter operations supported with ESG resources. No agencies received ESG shelter assistance during the 2021 - 2022 program year. However ESG -CV funds were used for motel and hotel vouchers and rapid re-housing assistance to address housing insecurities as a result of and during the COVID-19 pandemic. DHCD typically uses state resources to support shelter operations.
